

The top view of the MG03 module shows a central square component labeled "MG03". Surrounding it are several other components, including microprocessors (M1, M2, M3, M4, M6), memory modules (J3, J4, J6), and power regulators (PU1, PU2). Callouts indicate specific voltage levels: PU7 5V, PF1 12V, PL3 3V3, PL124 FBVDDQ, and PLM7 NVVDD.
